EQUINE BODYWORK

A bodywork session is roughly an hour long using a combination of myofascial release, craniosacral, tensegrity balancing, massage, joint mobilizations techniques and more to give your horse the most customized experience. May be subject to include an assessment fee and/or travel fee.

\$110.00

THERAPEUTIC NUTRITION CONSULT

A program is customized for your horse to include full history, symptoms, intention, suggested feeds, suggested supplements and any additional information that will benefit you and your horse. Consults generally include a video/phone call or an in person assessment. This makes the service available to locals and remote clients!

\$135.00

GROUND TRAINING

The horses come first, only once they have a strong foundation in what I am asking, I then include the owner and begin to teach the owner. This is a healthy combination of training the horse within their physical and emotional boundaries and instructing the owner in a way that is clear and easy to understand. May include a travel fee.
